SHARE MORE INFORMATION'S WITH YOUR GUESTS AND VISITORS.

GET ATTENTION AND MAKE THEM PLAY, INCREASE TURNOVER AND PROFIT.

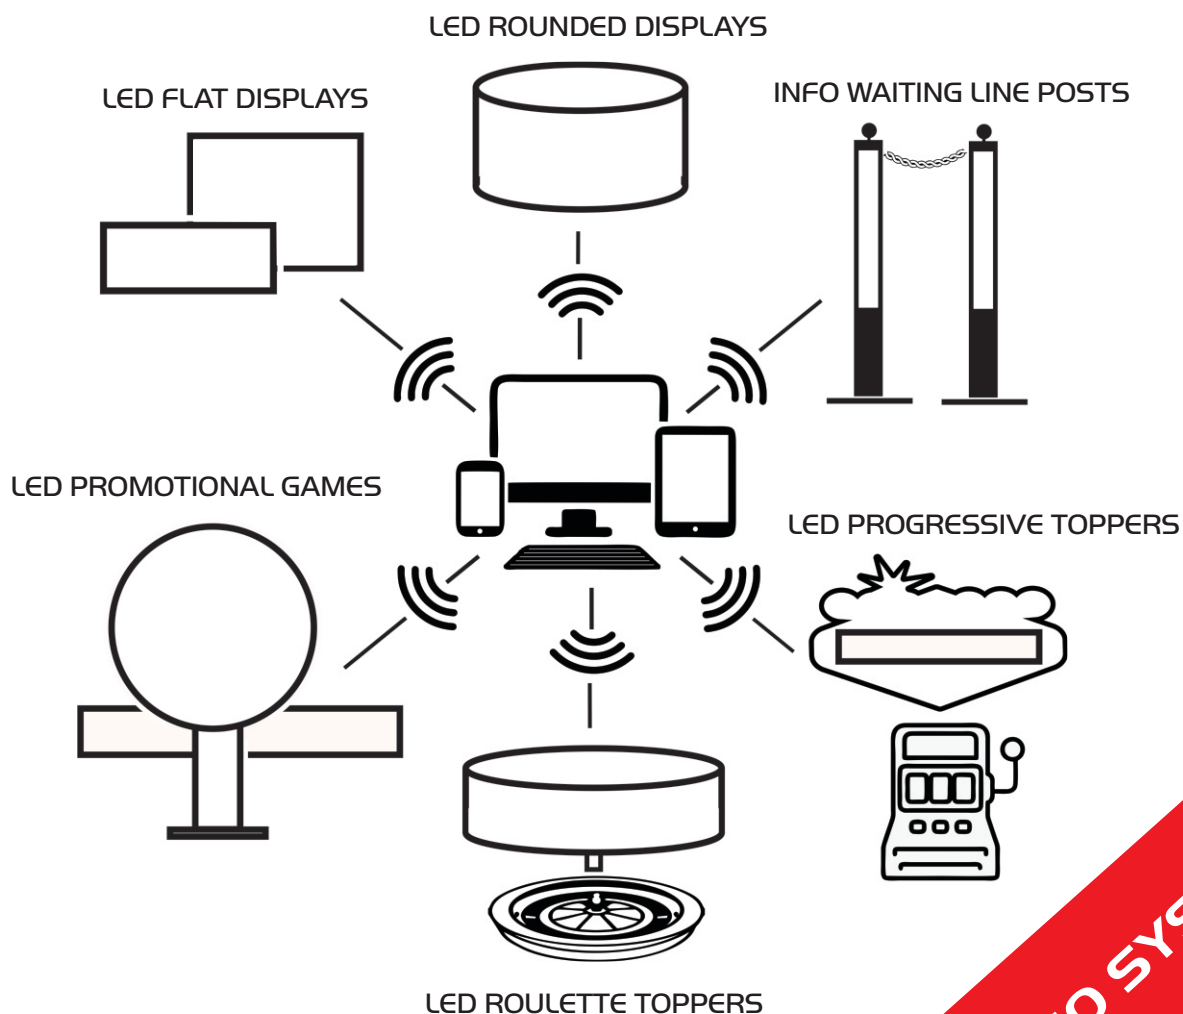

USE SMART INFO CASINO SYSTEM TO SHARE REAL TIME VALUABLE INFORMATIONS, PROMOTE SPECIAL EVENTS, JACKPOT VALUE AND DIRECT VISITORS TO DESIRED SPOT.

Casino floors have lots of different signs in order to direct visitors to desired locations or points of interest. Most of them are static and some even not illuminated. As Casino is very flashy environment it's almost impossible to spot them. As we understand this problem, we create visible, attractive and furthermore smart info signs or complete systems.

Our Smart Info Casyno System can be made upon your design preferences and technical requirements. Chose preferred shape (standard flat, circular, conical, rounded, as awaiting line post shape or else) or variety of different shapes, sizes, wall mounted or stand alone options, inform your visitors about Jackpot value, promote special events or simply help visitors to find desired spot.

Create your own animated and informative content individually and control your system from your phone, tablet or PC via several connecting options such as net cable, USB, internet, wi-fi or cloud services.

All aspects of the CDS Smart Info Casino System are fully customizable and can be made according to the customers needs and expectations. If requested we can offer graphic design services in order to create personalized eye-catching content.

Smart Info Casino System are developed and made by CDS COM tld, Slovenia, Europe.
