# Lucky Wheel **XXL** luxury edition - basic features & functionality

Create the game or promotion campaign - easy in a just a few steps:

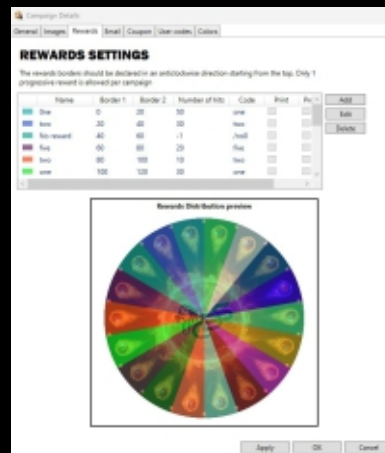

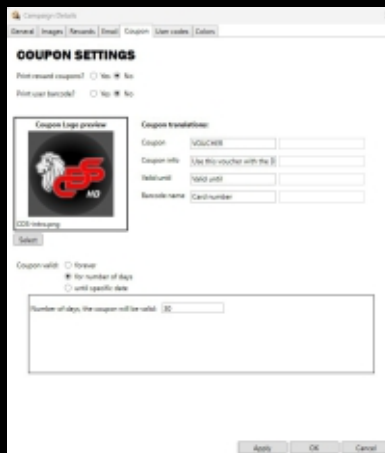

1. set 1-3 promo campaign - games with basic settings
2. For each campaign - game set the graphic design
3. set the probability of winnings & number of rewards

4. set all info about ticket printing,
5. Set player cards & QR-bar codes,
6. Set e-mail reports & statistics

All above settings give you full control over the costs and duration of a promotional campaign. The number and type of rewards during each campaign can be exactly specified. It supports up to three independent campaigns running in parallel, with different graphics, different rules, and different prizes, each can be quick and simple edited. Simple editing of marketing, promotional and game messages. No person is needed to operate it, therefore it can run 24/7. Daily statistical reports are generated automatically and sent to the e-mails in list.
